

IQF Frozen Compliance Document Checklist from Egypt

Use this checklist before committing to an IQF frozen sourcing route from Egypt.

Core Documents

- Product specification
- Packing specification
- Certificate availability for the selected partner route
- COA where available or required
- Lab-test reports where required
- Traceability references
- Buyer questionnaire

Frozen Product Details

- Product name, form, cut, grade, and size
- Storage temperature
- Shelf-life expectation
- Packing format
- Palletization
- Frozen sample status

Market Alignment

- EU, US, GCC, Saudi, Canada, UK, Halal, or buyer-specific requirements
- Labeling requirements
- Origin documents
- Reefer shipment document assumptions
- Importer-specific forms

Important Boundary

AgriAI Expert coordinates documentation review through selected Egyptian production and export partner routes. It is not a manufacturer, laboratory, authority, or certification body. Final compliance remains buyer, importer, authority, laboratory, certification body, partner, and project specific.
